

# Challenge Program honors students

The Challenge Program Inc. has issued awards to dozens of students in Indiana County for their participation and success in the program during the 2006-07 school year.

The program is designed to bring together high school students and the business community by providing incentives to students for successes they achieve while in school. Students in grades 10-12 participate and awardees are recognized for exemplary efforts in the following four categories: most improved academically, demonstrating hard work; best attendance, acknowledging dedication; most community service, indicating the willingness to give back; and best overall GPA, signifying top performance.

Each winning student receives a \$250 award:
