

Care Homes Sponsor KCHS Challenge

11-19-2007

Sugar Creek Rest and the Chicora Medical Center are sponsoring The Challenge Program, at Karns City High School.

The program offers cash incentives to students in grades ten through twelve, in four categories.

Students compete for \$250 prizes for the most improvement in a grade, best attendance in the grade, most community service in each grade, and best overall grade point average for a senior.

Karns City is the first Butler County school to offer the Challenge Program, which reaches more than 30-thousand students nationwide.

Sugar Creek Rest and Chicora Medical Center will underwrite the cost of the program at KCHS.
